Behavior Analysis Translations into English

BCBA: "Ms. Jones what I need you to do is use contingency management more effectively, I need you to withhold the reinforcer until little Johnny meets the criteria for completing his homework."

Translation: "Ms. Jones, do you think you could check on Johnny's homework and if it is complete give him his reward? Thank you, I believe this will teach him personal responsibility."

BCBA: "Since we have determined in our preference assessment that your social reinforcers are high priority for Jenny, we recommend deprivation for reinforcer and using extinction for tantrum behavior followed by DRA for compliance."

Translation: _____

BCBA: "Our functional analysis clearly shows that this target behavior is escape-maintained. You will need to block this behavior and put it behavior on extinction. Then, using successive approximations, systematically apply contingent tangible reinforcers for compliance using a schedule that I will provide."

Translation: _____
